(a) Storm-top field (250 km)
30 cases, median +3.3 km, fitted slope -0.03
(b) Deep-echo cells (case median)
28 cases, median +0.1 km, fitted slope +0.22
parallax fully visible
Uncorrected offset along the line of sight [km]
(positive: INSAT must move towards the satellite)
Shift applied to deep cores (BT < 220 K) [km]
South India (8)
Central India (11)
Himalaya (4)
Northeast (5)
